PROFILE

Enthusiastic and detail-oriented full-stack web developer with a solid foundation in front-end and back-end technologies. Proficient in HTML5, CSS3, and JavaScript, with hands-on experience in responsive web design using Bootstrap. Skilled in building dynamic web applications with React.js for front-end development and Node.js for server-side scripting. Familiarity with database management systems including MongoDB for NoSQL and Firebase for real-time databases. Eager to apply academic knowledge and practical skills gained through projects and coursework to contribute effectively to innovative web development projects. Quick learner with a passion for leveraging emerging technologies to deliver intuitive, scalable, and efficient solutions that meet client needs.

EXPERIENCE

PROJECTS

Bank Management

This website, created with React.js, lets users safely deposit and withdraw money from their bank accounts. It also allows users to easily check their transaction history to keep track of their finances.

E-Commerce

This website, built with React.js, lets shoppers view product details, add items to their cart, and easily adjust quantities. It makes online shopping straightforward with user-friendly features for managing selected items.
